

National Walk 'N Roll Dog Day

September 22, 2014, 4:30pm-5:30pm
Sponsored by the Veterinary Medical Center of Long Island Physical Rehabilitation Department

PLEASE JOIN US FOR THE VMCLI'S FIRST ANNUAL NATIONAL WALK 'N ROLL DOG DAY

Founded in August 2012 by award winning author and advocate for dogs with Intervertebral Disc disease (IVDD) and dogs in wheelchairs, Barbra Techel created this day in memory of her beloved Dachshund, Frankie, nationally and internationally known as the 'Walk 'N Roll Dog', and in honor of all wheelchair dogs around the world.

Barbara witnessed first-hand from Frankie who became paralyzed after a fall and diagnoses of IVDD, that dogs in wheelchairs can live happy, long, quality lives if given a chance. We should not take pity on pets who may lose their mobility but instead celebrate and embrace their perseverance and adversity. In Frankie's memory Barbara founded this day to continue to bring positive awareness to all dogs in wheelchairs.

Our Goal is to Exceed Your Expectations.

Advanced Imaging, Treatment Therapies & Diagnostic Modalities
